The #1 Selling Zoysia Lawn in Australia

EMPIRE ZOYSIA IN DEMAND

If you are wanting a grass that is low maintenance, looks beautiful and slow growing, then Empire Zoysia is definitely for you. Once established, Empire Zoysia is the most drought tolerant and low maintenance grass to grow. Soft to the touch Empire Zoysia has a fine leaf texture that has excellent wear tolerance making this grass perfect for your lawn at home, parks, sports fields and golf courses. This variety also thrives in extreme heat and humidity, but also has the highest salt tolerance perfect for coastal areas. This is why Empire Zoysia is a Queenslander's favourite lawn of choice.

EXCELLENT QUALITIES

Empire Zoysia is a very durable and robust grass which grows well in clay and sandy soil areas and is also excellent at out competing weeds once established. Having a good resistance to insects and diseases Empire Zoysia is definitely a family friendly choice that your kids are sure to love playing on. Whilst it can handle full sunlight Empire Zoysia copes with approximately 40-50% of shade each day, making it suitable for most general areas.

RECOMMENDED CARE REQUIREMENTS

- Mowing height is approximately 25-40mm in the sun and 40-60mm in the shade
- During Summer mow every 2-3 weeks
- During Winter mow every 3-4 weeks
- Fertiliser is generally 2-4 applications per year
- Full sun, handles approximately 40-50% shade
- Low water usage, still recommended to water regularly
